

Computer Camp

When: June 9 – 12 or June 16 - 19
1:00 – 4:30 p.m.
Who: Rising 7th - 9th graders that are in the band.
(If you are in the band in the 7th and 8th grade, you don't get to take computer.)
Where: Room M209 (Media Center Building)
Cost: \$120.00 (make checks payable to The Walker School)
Contact: Michael T. Mackey mackeym@thewalkerschool.org
770-427-2689 ext. 3509

A minimum of 5 and maximum of 12 will be allowed in the class. Due to demand a second class will be offered during the next week (see above for date and time).

Students that are in the band don't get a chance to take the 8th grade HTML class due to scheduling conflicts. This camp will allow these students to learn how to create web pages with the use of HTML, Java script, and Fireworks (a graphics editing program) and create blogs as well. The class will teach students to create a webpage through raw coding and post the web pages online if they choose. This promises to be a fun and rewarding educational experience for anyone that enjoys technology.
